SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

- 1 *Type of Information Collection:* New information collection.
- 2 *The Title of the Form/Collection:* Assessing Potential Benefits of Accessible Web Content for Individuals Who Are Blind.
- 3 *The agency form number, if any, and the applicable component of the Department sponsoring the collection:*

Form Number: None.

Component: The applicable component within the Department of Justice is the Disability Rights Section in the Civil Rights Division.

Affected public who will be asked to respond, as well as a brief abstract:

Affected public (Primary): Individuals who are blind.

Affected Public (Other): None.

Abstract: DOJ's Civil Rights Division, Disability Rights Section, is requesting PRA approval of a new information collection to assess potential benefits of accessible Web content to individuals who are blind and to inform future rulemaking under the Americans with Disabilities Act. DOJ proposes to have respondents who are blind interact with Web content that has high accessibility and low accessibility to assess any time savings that people who are blind experience when interacting with accessible Web content. The collection will also request additional information regarding challenges, if any, experienced by respondents while interacting with inaccessible Web content.

- 5 *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimated 30 respondents will participate at three hours per respondent. All of the respondents will fully complete the collection.
- 6 *An estimate of the total public burden (in hours) associated with the collection:* The estimated public burden associated with this collection is 90 hours. It is estimated that respondents will take an average of three hours to complete the process. The

burden hours for collecting respondent data sum to 90 hours (30 respondents \times 3 hours = 90 hours).
